## Profile Summary

I am a motivated and detail-oriented Computer Engineering student with a strong foundation in Java programming, MERN stack development, and Database management. Skilled in creating dynamic, responsive web applications and leveraging technology to solve real-world challenges. Eager to contribute to innovative projects in a fast-paced technical environment.

## Education

**Terna Engineering College , Nerul**                                                                                   **May 2025**
- *B.E. in Computer Engineering | CGPA: 8.34 / 10*

**Vinayak Ganesh Vaze College , Mulund**                                                                        **April 2021**
- *HSC (PCMB), Percentage: 88.33%*

**St. Xavier's High School , Airoli**                                                                                      **April 2019**
- *SSC, Percentage: 85.20%*

## Technical Skills

**Programming Languages:** Java, C# , Python, HTML, CSS, JavaScript
**Frameworks and Tools:** React, ExpressJS, NodeJS, Bootstrap, Tailwind, Git, GitHub, VS Code IDE, Azure Data Studio
**Databases:** MySQL, MongoDB
**Concepts:** Object-Oriented Programming (OOP), DBMS, RESTful API

## Experience

**SmartKnower** | Web Development Intern                                                               **Oct 2022 - Nov 2022**
- Acquired practical experience in web development, including building and optimizing responsive web applications.
- Collaborated on a real-world project, enhancing skills in HTML, CSS, JavaScript, and Bootstrap.
- Demonstrated strong problem-solving and teamwork abilities, earning recognition for dedication and performance.

## Projects

**House Rentals - Online Rental Search Platform**
*Technologies: HTML, Tailwind CSS, JavaScript, Gemini API, ML Model, Spring Boot, MySQL*
- Designed a multi-role rental platform for tenants to search, compare, and interact with listings, while enabling dealers/owners to manage properties.
- Integrated rent prediction, property comparison module, tenant enquiry system, and streamlined support features to enhance user experience and decision-making.

**Quick Calls - Contact Information Management Website**
*Technologies: HTML, CSS, JavaScript, MySQL*
- Developed a responsive website consolidating contact information for emergency and local services.
- Streamlined the contact details of  hospitals, police stations, fire brigades, hotels, etc reducing the need for repeated internet searches.

**Chota Bazaar - Local Business Digital Platform**
*Technologies: PHP, HTML, Bootstrap, phpMyAdmin*
- Designed and implemented a platform to enhance visibility for small businesses by showcasing their products online.
- Improved user engagement through a simple and intuitive interface, fostering local business growth.

## Certifications

- C# .NET with MS SQL                                                                                              **Udemy (2025)**
- Java Programming Certification                                                                          **Apna College (2024)**
- Web Development Certification                                                                         **SmartKnower (2022)**
